

CAPABILITY STATEMENT

REINFORCED CONCRETE

KMG is a small but diverse provider of end to end reinforced concrete services. We assist clients on a wide range of civil and construction projects throughout WA.

With our extensive experience, skilled workforce, and commitment to excellence, we deliver a fully integrated service offering in reinforced concrete construction and repair.

This capability statement outlines our key competencies and expertise that make us a preferred choice for WA civil, building and construction companies whom seek professional reinforced concrete sub contractors.

Key Capabilities:

Reinforced Concrete Construction:

KMG are well versed in all aspects of RC construction, rehabilitation and repair in both the commercial building & civil construction sectors. We utilise decades worth of real life experience gained both locally and globally in line with industry standards to ensure all work is delivered safely, on time, on budget and to the specified design requirements. First time, every time.

Our standard scope of work include but is not limited to the following:

- Formwork,
- Reinforcement,
- Concrete placement and finishing,
- Concrete repair and rehabilitation,
- Precast concrete and
- Concrete Patching

We can also also assist with most related works.

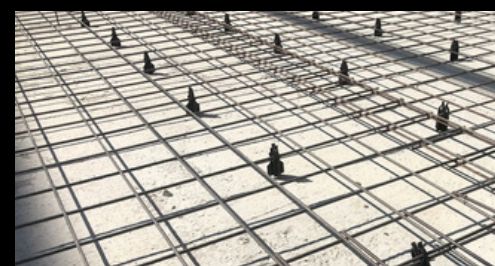

Related Capabilities:

In order to deliver an integrated service, we not only understand but are also fully capable of performing the necessary associated works. These include but are not limited to:

- Excavation and earthworks,
- Waterproofing,
- Demolition,
- Welding and
- The provision of labour

KMG also work closely with other subcontractors and can and do assist one another when needed.

SAFETY & QUALITY

We maintain a strong safety culture at **KMG** by implementing strict safety protocols to protect our workers, clients, and the community.

As part of our promise, we will:

Adhere to strict safety regulations and implement, where necessary, comprehensive safety protocols on every project.

Regularly perform quality control processes to ensure compliance with project specifications and industry standards.

Carry out inspections, testing, and documentation to maintain the highest quality standards.

Who we work with:

We work closely with a small number of clients throughout WA. Those of which, references can be made available from upon request.
